MEDICINE, BIOSCIENCE
& NURSING

MAHSA
UNIVERSITY

"Medical Sciences is not only science but an art too dealing with the very processes of life, which must be understood before they may be guided"

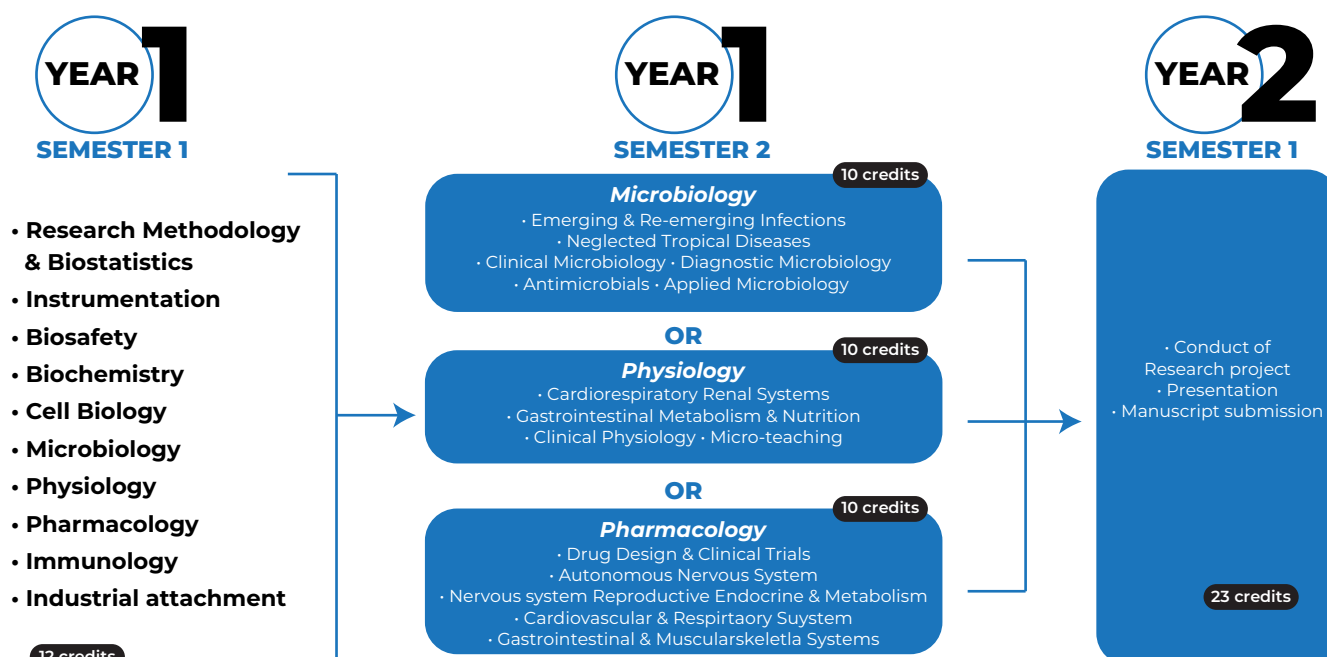

- Paracelsus
Swiss German Physician

MAHSA University's Master of Medical Sciences is designed primarily for candidates who can then expect to continue onto doctoral studies (Ph.D., M.D., or the equivalent). Graduates will be able to apply the knowledge gained to real life situations, develop social skills, critical thinking, emphasizing on an integrative and technological understanding of biological systems at all levels and prepares them for a career in research and teaching in the field of Medical and Health sciences. Graduates become competent in management of ideas, communication, leadership and be able to evaluate complex issues, plan, implement and publish findings. The programme initiates them into methods of intense study and research in some selected areas of medical sciences.

The university has invested in a state of the art interactive virtual systems, one of the most advanced systems in teaching and learning with MAHSA being a pioneer in using it in Malaysia. A museum equipped with the latest virtual and augmented reality technology with 3D videos of basic medical sciences viewed using 3D-glasses and with which enables one to enter into the world of augmented reality travelling inside the different body parts and experiences the human systems in a completely different and exciting perspective, which is also a first in Malaysia.

PROGRAMME STRUCTURE

WHY STUDY AT MAHSA

Curriculum designed to suit current trends and needs

A novel curriculum combining coursework and research
