KPT/JPS (N/722/4/0045) (MQA/PA9410) 07/23

**FACULTY OF
MEDICINE,
BIOSCIENCES
& NURSING**

“ A Paramedic works in an exciting and rewarding area of healthcare i.e. ‘pre-hospital’ care. He is a member of a unique profession composed of highly trained men and women dedicated to making difference in people’s lives. ”

Mick J. Sanders MSA EMT-P
Paramedic and Author of Leading Paramedic Textbooks

OVERVIEW

Paramedics are often the first on hand at the time of patients' greatest needs to administer emergency care and even help save their lives. The earliest respondents to any emergency situation, paramedics manage the emergency care of sick or injured persons in the out-of-hospital setting. The Diploma in Paramedical Science prepares students to qualify as paramedics to provide outdoor emergency medicine under expert medical direction. Paramedics perform assessments and provide medical care to prevent and reduce morbidity and mortality caused by illness and injury. Paramedics save lives by delivering crucial attention to patients on the way to hospital.

PROGRESSION PATHWAY

SPM / 'O' LEVELS

Diploma
in Paramedical
Science

Employment

Bachelor

Master

Phd

PROGRAMME STRUCTURE

YEAR 1

- Anatomy for Paramedics
- Emergency Medical Dispatch
- Emergency Medicine 1 & 2
