

MASTER OF MEDICAL SCIENCE (ANATOMY)

JPT/BPP (N/721/7/0023) 01/23

MAHSA
UNIVERSITY

FACULTY OF MEDICINE & BIOMEDICAL SCIENCES

"I learn Anatomy not from books but from dissections, not from tenets of Philosophers but from the fabric of nature".

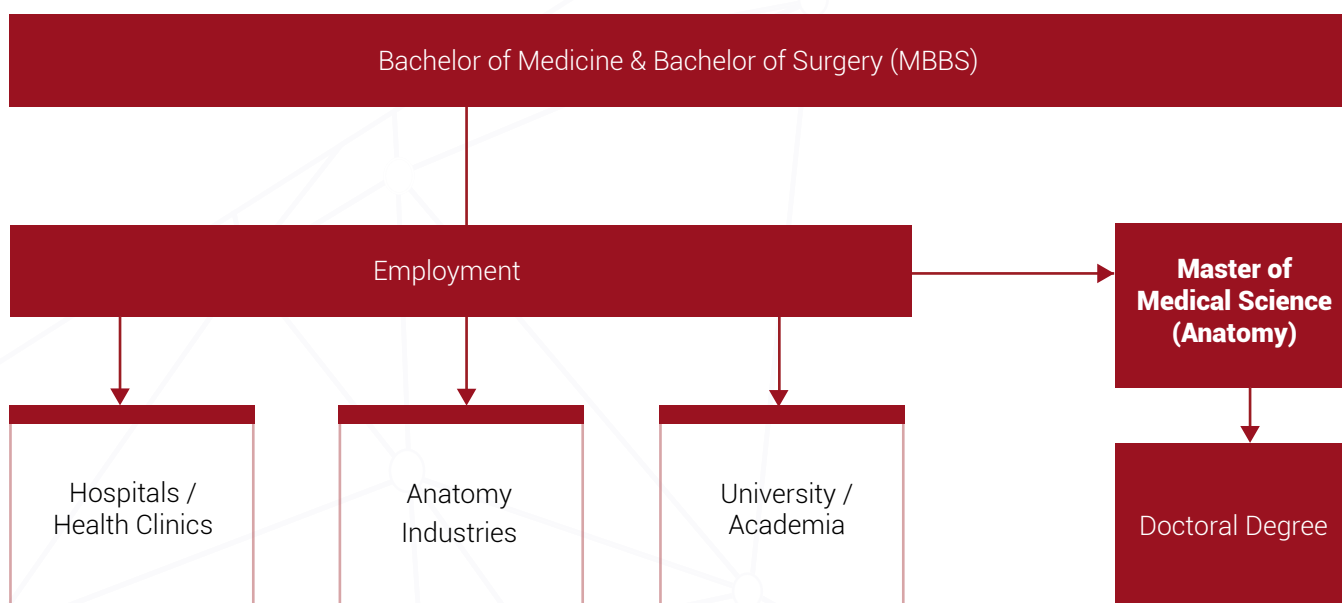

- William Harvey
Physician

MAHSA University's Master of Medical Science (Anatomy) is designed primarily for students who can then expect to continue onto doctoral studies (Ph.D., M.D., or the equivalent). This specialisation assures training in research techniques and in the preparation of scholarly papers, and it culminates in the preparation and defence of a thesis based on original research. The student's programme of study is an initiation into methods of intense study and research in some selected area of anatomy.

This programme is primarily designed to train graduate students in the Anatomical Sciences for teaching and research in the Medical and Health disciplines. It extends over a period of four semesters, is full time and is primarily by course work with a component on research which is presented as a dissertation. It covers a total of twelve modules and carries a 40 credit value. Students also have the option of selecting two electives. The student will graduate with the degree of Master of Medical Science in Anatomy. (M.Med.Sc. Anatomy). The degree is accredited by the Malaysian Qualification Agency (MQA) and is taught by highly qualified and experienced lecturers and professors.

PROGRESSION PATHWAY

WHY STUDY AT MAHSA

Wide Clinical Exposure

Community-Based Projects

Fully-equipped Laboratory

Experienced and highly qualified teaching faculty

Award winning teaching and learning facilities

PROGRAMME STRUCTURE

YEAR 01	YEAR 02
Cell Biology And Biochemistry	Research Methodology
Embryological Development and Genetics	Advanced Dissection Practicum
Gross Anatomy 1	Research Project Proposal
Histological Techniques	Dissertation
Gross Anatomy 2	
Neuroanatomy	
Dissection Practicum	
Imaging Anatomy	

ENTRY REQUIREMENTS

Qualification

Bachelor's Degree

Requirements

Degree in Health Sciences, Biomedical, Life Sciences, Zoology from a recognize University with CGPA of above 3.0

Degree in Medicine, Dentistry, Veterinary or Pharmacy with CGPA 3.0 from local University

Equivalent Degree approved by the committee on postgraduate

Bachelor's Degree equivalent from related field with CGPA at least 2.50 and 3 years' experience in related field

Able to satisfy examiners during qualification examinations if necessary

English Proficiency

IELTS	TOEFL
6.0	550

CAREER OPPORTUNITIES

The main objective of this programme is to expose graduates to the science of Anatomy and its clinical aspects. At the end of the course candidates are expected to have to be able to apply the knowledge to real life and clinical situations. Candidates are academically qualified to teach both undergraduate and postgraduate students in tertiary institutions.

The Graduate Programme in Anatomy prepares students for careers in research and teaching in the anatomical and life sciences. With emphasis on an integrative understanding of biological systems at levels ranging from the molecular to the organism. The goal is to generate anatomists who will be competitive in the academic. Industrial and/or government job markets of the coming decades.

RECOGNITION

MEET OUR ALUMNI

“ As a master student in Anatomy, I would like to reflect my humble opinion. The positive points I encounter in my study was the respect Lecturers and Professors showed. Their experience in facilitating knowledge acquirement, frequent guidance to problems I face and the vision for improvements to compete with the best of similar programs in other universities. ”

A. M. AbuMosameh Maher
