## FACULTY OF BUSINESS, FINANCE AND HOSPITALITY

"The word accounting comes from the word accountability. If you are going to be rich, you need to be accountable for your money."

– Robert Kiyosaki  
American businessman & Author

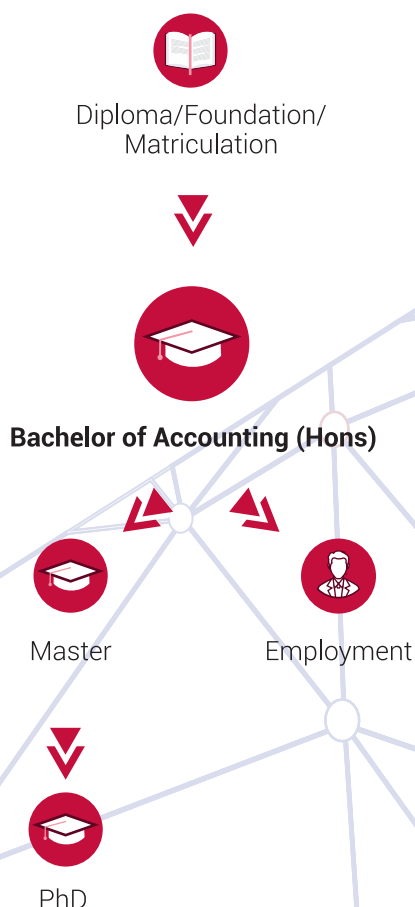

MAHSA University's Bachelor of Accounting is a three-year, highly specialised undergraduate degree programme that qualifies its graduates as accountants upon registration with the Malaysian Institute of Accountants.

Graduates have a choice of going into direct practice either in the public or private sector, or go on to pursue professional accountant certifications such as the CPA (Certified Public Accountant), the ACCA (Association of Chartered Certified Accountants), and CIMA (Chartered Institute of Management Accountants), while meeting the work requirements of accounting and audit firms.

During the duration of the programme, students will explore various depths and breadths of cost accounting, financial accounting, managerial accounting, corporate accounting, accounting information systems, auditing and assurance, International Financial Reporting Standards (IFRS), Generally Accepted Accounting Principles (GAAP), stakeholder values and ethics, issues in financial reporting, information technology for accountants, quantitative methods, corporate finance, organisational behaviour, business economics, business law, company and association law, taxation law and practices, financial statements and investment analysis, cost management, innovation and entrepreneurship, and advanced business communication.

## PROGRESSION PATHWAY

## MAHSA360

During their time at MAHSA University, we want to provide all of our students with the opportunity to develop qualities, skills and understanding that go beyond the disciplinary expertise and prepare them for the next steps in their chosen careers.

MAHSA360 is the ecosystem that works to ensure every single student is nurtured and supported throughout the student journey.
