DIPLOMA IN
PHYSIOTHERAPY

KPT/JPS(R/726/4/0060)(A6146)06/20

**FACULTY OF
HEALTH SCIENCES**

OVERVIEW

Physiotherapy is a healthcare profession involving in the rehabilitation of patients with neurology, cardio-respiratory and musculoskeletal disorders that emphasises the use of physical approaches in the promotion, restoration and maintenance of health and functional movement of people of all ages.

DIPLOMA IN PHYSIOTHERAPY

Upon completion of the Diploma in Physiotherapy programme, graduates possess knowledge and hand-on skills to manage and prevent problems which arise from movement disorders. They will be able to implement techniques to correct or manage various impairment and disabilities of the human body due to diseases, injuries and aging. They should develop the ability to carry out assessment, interpret findings, plan and implement treatment by using physical means. They will be a member of the healthcare team.

“

Physiotherapy is an integral part of healthcare profession, which involves educating, treating and rehabilitating patients.

”

PROGRAMME AIMS

The 3-year course is designed to offer students a comprehensive learning and practical experience. Through lectures, tutorial, practical sessions and clinical education, the programme will:

1. Provide knowledge and practical skills based on scientific principles of physiotherapy
2. Inculcate attitudes, ethics, and sense of professionalism and leadership skills for societal advancement within the framework of the national vision
3. Nurture the ability to analyse and solve problems as well as to evaluate and make decision critically and creatively based on evidence and experience
4. Develop a quest for knowledge and lifelong learning skills through research that are essential for continuous upgrading of knowledge and skills that parallel the rapid advancement in global knowledge

PROGRAMME STRUCTURE

YEAR 1

- Anatomy and physiology I
- Applied Anatomy
- Pathology
- Behavioural Science I
- Kinesiology I
- Musculoskeletal I
- Electrotherapy I
- Movement
- Introduction to Healthcare I

YEAR 2

- Anatomy and physiology II
- Behavioural Science II
- Kinesiology II
- Musculoskeletal II & III
- Cardiorespiratory I & II
- Neurology I
- Electrotherapy II
- Introduction to Healthcare II
- Clinical education I

YEAR 3

- Neurology II
- Women's Health
- Paediatric
- Geriatric
- Sports
- Occupational Health
- Introduction Healthcare III
- Clinical education II & III

DURATION

3 ACADEMIC YEARS
on a full-time basis

ENTRY REQUIREMENTS

Academic Qualification

Requirements

SPM

SPM or equivalent with 5 credits in the following subjects: Bahasa Malaysia; English; Mathematics - 1 Science subject (Biology / Physics / Chemistry / General Science / Applied Science); any other 1 subject

OR

GCE / 'O' Levels

GCE / O Level or equivalent with 5 Grade C in the following subjects: English; Mathematics - 1 Science subject (Biology / Physics / Chemistry / General Science / Applied Science); any other 2 subjects

OR

Certificate

Certificate related to Health Sciences with minimum CGPA 2.75

OR

Others

Other equivalent qualification
