## Bandar Saujana Putra

MAHSA's 50 acre Saujana Putra Campus has proudly seen the first phase of its introduction to the Malaysian education landscape.

The Saujana Putra Campus has a total of 1 million square-feet of buildup area with on-campus residences for all students along with a host of praise-worthy academic facilities.

These superior teaching facilities coupled with its "Green Building" design provides an optimal learning environment to produce vibrant student leaders, and an ideal, modern yet comfortable, home away from home for students, both local and international.

# Nursing

Nursing is more than just taking care of sick people. Today, it has become an integral part of the healthcare services and a specialized field that includes promotion of health, prevention of illness and care for the ill and disabled people. Hence, nursing not only requires medical knowledge and competence, but communication and problem-solving skills, and above all, patience & compassion.

## PROGRAMME OBJECTIVES

At MAHSA, the 3-year Diploma in Nursing develops students' know-how in nursing, enabling them to provide safe and competent care in various healthcare settings. The course combines theoretical learning in classrooms and practical training in simulation ward and skill lab. In addition, students will be required to attend practical placements in participating local hospitals. The strong emphasis in nursing knowledge and hands-on training ensures graduates competency as Registered Nurses as well as giving them the advantage in employment.

## PROGRAMME STRUCTURE

The 3 integrating strands in the curriculum are:

### STRAND 1

#### Nursing Science

Fundamentals of Nursing, Community, Health, Mental Health & Obstetric Nursing.

### STRAND 2

#### Health Science

Anatomy Physiology, Biochemistry, Microbiology & Pharmacology.

### STRAND 3

#### Behavioral Science

Human & Public Relations, Communication, Psychology and Sociology.

**“Caring for the well-being of others along the journey of life”**
