DIPLOMA IN DENTAL SURGERY ASSISTANT

KPT/JPS (N/724/4/0029)(MQA/PA5172) 07/28

PROGRAMME OVERVIEW

Dental Surgery Assistants are important, integral and valued members of the dental-healthcare team. They are instrumental in helping both dentists and patients. A career as a dental surgery assistant can be exciting, challenging and very rewarding.

A highly skilled dental assistant working alongside the dental surgeons will provide benevolent care to the community by helping people enhance and maintain their oral health.

The 3-year Diploma in Dental Surgery Assistance programme contains the essential and balanced theoretical and practical / clinical practices. The courses taught in this programme are an integration of basic sciences, dental sciences, behavioral sciences, ethics and

humanities with special emphasis on communication, clinical sciences in various specialties and the clinical practice and management which make up the greater portion of the entire course.

MAHSA also provides a part-time mode whereby the training period will span to 6 years.

At the end of this programme, students will have procured for themselves the ability to carry out safe dental practice in various dental assisting tasks, from basic dental procedures to specialty areas including taking of intra-oral radiographs and providing dental-health education to communities.
