COVID-19 Professional Disinfection Services

FOR OFFICES AND HOMES

WE CAN ENTERPRISE

Empowering Our Clients in the New Norm

OUR PRODUCTS & SERVICES

We provide safe, effective, fast and affordable indoor and outdoor disinfection services using a combination of disinfectants and application methods according to site conditions. Our disinfectants are United States EPA approved disinfectants as well as FDA approved for use in food industry and for food processing equipment. These disinfectants are safe for food contact areas with no rinsing required. Endorsed by the Ministry of Health Malaysia as effective against COVID-19 and compliant with Centre of Disease Control (CDC) guidelines for disinfection, and WHO Environmental Health Criteria 216: Disinfectants.

These broad-spectrum disinfectants kills 99.99% microorganisms and is recommended by the Ministry of Health Malaysia (MOH) and World Health Organisation (WHO)

OUR SERVICE TEAM

Our Disinfecting Team consist of professionally trained applicators who are supervised by retired government Health Inspector and strictly compliant with Ministry of Health Malaysia recommended Standard Operating Procedures and disinfection guidelines.

AI Face Temperature Detection, Access Control & Temperature Record Terminal

Thermal Imaging Camera Technology

Face Recognition & Temperature Detection

Temp: 35.7°C OK

((CARD))

ET-X1S   ET-X8

FEATURES & BENEFITS

Milli-seconds face temperature detection & record

Facemask detection > 90% accuracy

Temperature accuracy up to ± 0.3°C

Door access integration
(Optional Mifare/ID/MyKad Card Reader)

Large internal memory
up to 20,000 face storage, 50,000 people record and 10,000 hours temperature record

WIFI, LAN & USB Interface
(Optional RS-485, Wiegand
& other interfaces)

APPLICATIONS

Organisations that requires body temperature screening & records

Venus Intelligent Germicidal UVC Light System

VENUS powerful Intelligent UV Disinfection lamps are designed at 253.7nm germicide wavelength to disinfect a wide range of surfaces, such as workstations, equipment, tables, machines, keypads, computers, lift and more!UVC lights can kill up to 99% of harmful bacteria and viruses, including the COVID-19 corona virus! It can do this without needing to come in direct contact with potentially contaminated surfaces. By combining with intelligent control disinfection technology solution, the built-in Occupant detection sensor safety features, which protect occupants from expose to harmful UVC radiation; and with configurable disinfection timer for different sanitization needs. VENUS UVC lights also offer ease installation features. Can be attached to the wall with the strong double-sided tapes or screw on the wall and ceiling.

Nano Spray Gun & Disinfectants

Plug & Play

Light Weight

RM299.00

3 months Warranty

FEATURES:

- Rated Power 1200W
- Comfortable grip handle
- Anion adjusting knob
- On/Off switch with green light power indicator
- Anion Nano-Stream Gas Production - 22ml/min
- Rated voltage: 220 - 240V 50Hz
- Product Weight: 1.3kg
- Product Size: (22 x 12 x 21)cm
- Warranty: 3 months

Nano Spray Gun - FULL Coverage On Surface

FUNCTIONALITY:

- Kills viruses & sterilisation of surface with **DISINFECTANT SOLUTION**
- Hair Colouring with hair **DYE SOLUTION**
- Humidify environment with **RO WATER**

⚠️

Do not put chemical solutions such as alcohol, ethanol, or others as it is dangerous and can cause explosion in the room

NaOClean®
DISINFECTANT WATER

NaOClean

5 Litres RM140   20 Litres RM440

PACKAGE INCLUDES

- 1 x Spray Gun
- 1 x 260ml water botte
- 1 x User Manual

DALI TE-W300
Hand Held Body Temperature Screening

FEATURES:

- Use external power,
- 24 hours non-stop working
- Non-contact rapid screening
- Avoids cross infection
- External display
- Full video image recording
- High-precision body temperature measurement algorithm

MAIN SPEC:

- Resolution: 160 x 120
- Temperature range: 20°C - 50°C
- Accuracy: 0.6t
- CCD: 1.3 Million pixel
- Working Temperature: 0°C - 40°C
- LCD: 3.5" LCD
- Function: Abnormal temperature alarm, automatic tracking video and photo functions

PACKAGE INCLUDES

- Thermal Camera
- TF Card
- Video output cable
- Carry case
- Power Adapter
