

# Three-Day CROWN & BRIDGE AND PORCELAIN VENEERS WORKSHOP

includes live patient demo of a CAD/CAM crown

7 - 9 December 2018 | Friday - Sunday | 8.30 am - 5.00 pm  
Simulation Lab Level 4, Dental Building, MAHSA University

Organised by:

Faculty of Dentistry,  
MAHSA University

Sponsored by:

## Workshop Highlights

- Incorporate Fixed Restorations (including Porcelain Veneers) to boost your clinical practice
- Training by highly-skilled clinicians in the field of Fixed Prosthodontics
- Learn and practise tooth preparation on at least three Typhodont teeth under expert supervision
- Easy Clinical and Laboratory tips to reduce chairside time
- Watch live patient demo and experience CEREC CAD/CAM technology, which is the future of Dentistry
- Step-by step demo and digital workflow of Dentsply Sirona's CEREC CAD/CAM system for single-visit restorations

## About The Workshop

This three-day comprehensive workshop is designed for General Dental Practitioners who want to incorporate fixed restorations like full Veneer Crowns, Fixed Partial Dentures and Porcelain Laminate Veneers into their dental practice. It will give you an overview of the fundamentals of Fixed Prosthodontics focusing on Diagnosis and Treatment Planning with special emphasis on Digital Dentistry. The hands-on element of this workshop will provide the necessary skills in Tooth Preparation, Provisionalisation, Impression Techniques and a Demo of Complete Digital Workflow for fabricating single-visit crowns using CAD/CAM technology on a patient.

Upon completion, participants will be able to establish an effective treatment plan considering each patient's needs and diagnostic findings, understand the principles of tooth preparation from a mechanical, biological and an aesthetic perspective, master tooth preparation and impression techniques for different types of fixed Restorations, including Laminate veneers and explore the basics in Digital Dentistry and experience CAD/CAM technology for same-day dentistry.

## Target Audience

General Dental Practitioners

## Aim

- Enable dental practitioners to acquire skills and knowledge in the fabrication of full-coverage crowns, fixed partial dentures and porcelain laminate veneers
- Introduce Digital Dentistry and its application into the day-to-day practice
