

Masterclass in Food Hygiene and Handling Practice

Faculty of Health and Sport Sciences

Introduction

Food safety and hygiene is everything that the food handlers do within the food production and service industry in compliance with the Food Hygiene Regulations, 2009. This is a compulsory course for food handlers and hence it is legally imposed standard for protection of consumers to prevent them from getting any illness or disease. All food handlers are legally bound to attend and experience this course which will successfully guide the participant through the legal, safety and hygiene practices in a food-handling environment. Legal compliance has become an issue that is rather complicated and needs special and serious attention (MOH 2019).

The learning objective is to understand the food hygiene and food handling practice in Malaysia to protect the consumers.
